

Test Case

Working Buttons Test

Description:

This test will verify whether the two buttons(See All Bots and Draw) on the Duel Duo website's initial start page UI are working.

Steps:

1. Navigate to the website using the link <http://localhost:3000>
2. Click on the first blue button named "See All Bots"
3. Click on the second blue button called "Draw"

Test Postconditions:

1. Clicking the "See All Bots" button should display all the bots available.
2. Clicking the "Draw" button should display 5 random bot cards.

Environment:

Browser: Chrome

OS: Windows 11

Bug Report 1

Working Buttons Test Bug Report

Description:

The "See All Bots" button does not function. It does not display anything when clicked.

Steps to Reproduce:

1. Navigate to the website using the link <http://localhost:3000>
2. Click on the first blue button visible on the site named "See All Bots"

Expected Result:

1. Clicking the "See All Bots" button should display all the bots available.

Actual Result:

1. Clicking the "See All Bots" button does not display anything. It does not function.

Environment:

Browser: Chrome

OS: Windows 11

Attachments:

No changes happen when the “See All Bots” button is clicked. The page is the exact same.

Click the Draw button to draw 5 random bot cards and then choose 2 to be your
Duel Duo!

Once you have your Duel Duo, click the Duel button to fight a computer Duo!

See All Bots

Wins: 0

Losses: 0

Draw

Bug Report 2

Wins/ Losses Bug Report

Description:

The win count does not change when the player wins a duel against the computer. Instead, the player's win points get added towards the losses count.

Steps to Reproduce:

1. Navigate to the website using the link <http://localhost:3000>
2. Click on the second blue button visible on the site named “Draw”
3. Choose any 2 out of the 5 displayed bots.
4. Click the “Add to Duo” button for the 2 chosen bots.
5. Then, click the “Duel” button at the bottom of the page.

Expected Result:

1. If the player wins, a point should be added to the player's win count.
2. If the player loses, a point should be added to the player's losses count.

Actual Result:

1. Even if the player wins the duel, the player's points get added to the player's losses count. Player's wins get added to the losses count. Wins count does not function correctly.
2. Player's losses get added to the losses count- this is expected and is correct.

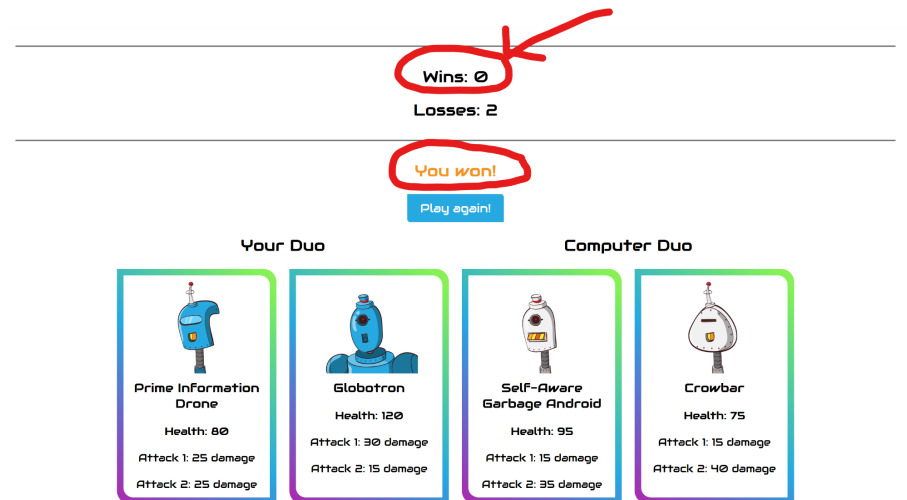

Environment:

Browser: Chrome

OS: Windows 11

Attachment:

No changes happen to the wins count even when the player wins the duel. The point gets added to the losses count instead.
